

MUHAMMAD ABI RAFDI PRATAMA

FULL STACK WEB DEVELOPER

Bandung City, West Java, Indonesia | (+62) 896-1361-5041 | pratamaabi28@gmail.com

Portfolio: <https://my-portofolio-omega-lemon.vercel.app/>

PROFESSIONAL SUMMARY

Informatics Engineering graduate and BNSP-certified Junior Web Programmer with hands-on experience building full-stack web applications using PHP, Laravel, and JavaScript. Experienced across the full development lifecycle — from requirements gathering and database design to implementation, testing, and deployment — with a focus on CRUD systems, interactive mapping features, and maintainable code delivered in collaborative teams.

TECHNICAL SKILLS

Languages: PHP, JavaScript, HTML, CSS

Frameworks: Laravel

Databases: Relational Database Design, Optimization & Maintenance

Concepts: CRUD Development, RESTful Web Applications, Responsive Web Design, UML Design

Testing: Functional Testing, Test Case Design, Bug Fixing, System Validation

Tools: Figma, QGIS, Photoshop, Canva, Microsoft Office

Soft Skills: Communication, Teamwork, Time Management, Adaptability

PROFESSIONAL EXPERIENCE

Quality Assurance Trainee (Bootcamp) — PT. Adi Data Informatika

Jan 2026

Bandung, Indonesia

- Created test scenarios and cases for a demo banking application, covering positive, negative, and boundary conditions.
- Performed functional testing on core features (registration, login, fund transfer, transaction management) and reported defects against acceptance criteria.

Web Developer Intern — PT. Telkom Indonesia

Sep 2023 – Dec 2023

Bandung, Indonesia

- Developed SIMOOLTAN (Actual & Integrated OLT Management Information System) using the Laravel framework to streamline data management for the PED division.
- Designed and implemented CRUD functionality that enabled efficient data processing and management.
- Contributed to database design, optimization, and maintenance to ensure data consistency and reliability.
- Built the Backbone OLT web application in Laravel to visualize project geolocation data through interactive maps, improving project monitoring and location tracking.
- Gathered requirements and translated business needs into working system functionality alongside the team.
- Performed software testing, bug fixing, and system validation prior to deployment.

Web Developer (Part-Time) — Unix Cafe

Aug 2022 – Dec 2022

Bandung, Indonesia

- Developed and maintained the Unix Cafe website in line with business requirements and customer needs.
- Designed and implemented features to improve user experience and information accessibility.
- Conducted cross-browser and cross-device testing to ensure functionality, usability, and compatibility.
- Identified and resolved bugs and technical issues throughout development and testing.
- Supported research and development of new website features.

EDUCATION

Universitas Komputer Indonesia — Bachelor of Informatics Engineering

Sep 2020 – Oct 2024

Bandung, Indonesia | GPA: 3.41 / 4.00

CERTIFICATIONS & LANGUAGE

- BNSP Professional Certification — Junior Web Programmer
- AP2SC Hardware Certificate
- TOEFL ITP — Score: 489

ORGANIZATIONAL EXPERIENCE

Informatics Engineering Student Association (HMIF)

2022 – 2023

Universitas Komputer Indonesia

- Chief Executive, PILKAHIM student election; Consumption Coordinator, HMIF Dies Natalis — led cross-divisional planning and execution.
- Committee Member — Logistics (GAMATIF) and Event (Technopreneur Vol. 3) divisions.
